

Declaration of the microparticulate content of synthetic polymers (microplastics) and per- and polyfluoroalkyl substances (PFAs)

EU Regulation 2023/2055, which has added entry 78 to Annex XVII of REACH Regulation (EC) 1907/2006.

The company **CİMSA CEMENTOS ESPAÑA, S.A.U.** , with registered office at:
Carretera Nacional Madrid-Valencia, Km 307, 46360 Buñol (Valencia)

DECLARES:

All raw materials used, and all cements produced, are PFA-free and free of synthetic polymer microparticles. The raw materials come from natural sources and the alternative fuels we use are 100% biomass. Additionally, this presence is impossible/non-existent due to the fact that cement kilns operate at very high temperatures, have very long gas and solid dwell times and have the added advantage of providing a caustic environment for the reaction of halogens and the neutralization of acids.

The cements we produce are the following:

CEMENT	CE CERTIFICATE NO.
EMC I 52.5 R UNE-EN 197-1:2011 <i>BL I 52,5 R UNE 80305:2012</i>	0099/CPR/A33/0330
CEM II/A-LL 52,5 R UNE-EN 197-1:2011 <i>BL II/A-LL 52,5 R UNE 80305:2012</i>	0099/CPR/A33/0329
CEM II/B-LL 42,5 R UNE-EN 197-1:2011 <i>BL II/B-LL 42,5 R UNE 80305:2012</i>	0099/CPR/A33/0331
MC 22.5 X UNE-EN 413-1:2011 <i>BL 22.5 X UNE 80305:2012</i>	0099/CPR/A33/0538
